MARCH 2022

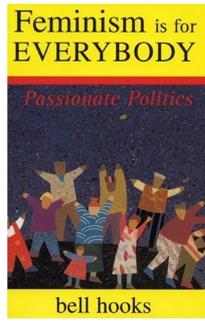

**RECOMMENDED FOR WOMEN'S HISTORY MONTH**

Learn about incredible women throughout history in just about 5 to 10 minutes a day with this podcast at <https://encyclopedia-womanni-ca.simplecast.com/>

Author Mikki Kendall unveils how feminism has failed underrepresented populations of women and misunderstood issues affecting their daily lives.

Author bell hooks addresses how feminism applies to everyone's daily life and intends her text to be read by both women and men. **Borrow @ NCCC Library**

**And Nothing Less** commemorates 100 years of the 19th Amendment and women's constitutional right to vote. Listen here: <https://www.nps.gov/subjects/womenshistory/and-nothing-less-podcast.htm>

**ZONTA CLUB OF THE ADIRONDACKS: LUNA FEST 2022**

LUNAFEST®, an 80 minute program of 8 short films that empower and inspire. This year's stories are told from a variety of perspectives that champion women and gender nonconforming individuals, highlighting their aspirations, accomplishments, resilience, strength, and connection.

**EXPLORE: The Smithsonian's American Women's History Initiative**

*"To create a more equitable America, the Smithsonian is researching, disseminating, and amplifying the histories of American women through its American Women's History Initiative in preparation for the future Smithsonian American Women's History Museum."*

**EXPLORE: Celebrating Trans Women During Women's History Month**

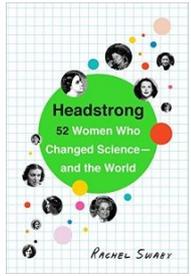

<https://www.nypl.org/blog/2021/03/05/celebrating-trans-women-womens-history-month>

The New York Public Library has curated a list of resources by or about transwomen. For the most current NYPL blog posts visit: <https://www.nypl.org/>

**WOMEN IN SCIENCE: 52 Women Who Changed Science — and the World by Rachel Swaby**

*"Headstrong delivers a powerful, global, and engaging response. Covering Nobel Prize winners and major innovators, as well as lesser-known but hugely significant scientists who influence our every day, Rachel Swaby's vibrant profiles span centuries of courageous thinkers and illustrate how each one's ideas developed, from their first moment of scientific engagement through the research and discovery for which they're best known. This fascinating tour reveals these 52 women at their best -- while encouraging and inspiring a new generation of girls to put on their lab coats."* (AMightyGirl.com).

**DO YOU KNOW THE STORY OF DR. GLADYS WEST?**

American mathematician known for her work contributing to the development of the GPS. Her contributions were unseen for decades, and then in 2018, West was finally inducted into the US air force hall of fame. Read more [here](#).
