

# COVID-19 UPDATE

Feb. 10, 2022

## SUMMARY:

Reports of positive cases remain low on our campuses and are declining in our communities. But community spread is still occurring. Please stay vigilant, wear your mask, and help curb the spread of Covid-19.

## MASK MANDATE UPDATE:

This week, Gov. Hochul announced the lifting of the statewide indoor mask mandates for businesses. Counties, cities and businesses will be able to opt into the mask-or-vaccine requirement if they choose.

For the college, **required masking will continue** as the governor's action did not address schools. The governor is planning to evaluate the mask mandate as it relates to educational settings in early March

Once again, at this point, the mask mandate for those on campus remains in place.

## GET TESTED:

Do you have Covid-19 symptoms, or were you exposed to someone who tested positive? If you need to get tested, contact your local hospital, pharmacy or health department. You can also check this site: <https://coronavirus.health.ny.gov/find-test-site-near-you>

Additionally, the college is providing [free testing at our Ticonderoga campus](#) on Fridays.

## NCCC POSITIVE COVID CASES (ALL CAMPUSES)

**Total Current Positive Cases 1**  
**Total Positives Last 14 Days 3**

Campus Location	Current Positive Cases
Malone	0
Saranac Lake	1
Ticonderoga	0

## COLLEGE BOOSTER PROGRESS:

SUNY has required any students who will be on campus for the Spring 2022 semester to be fully vaccinated and boosted. As of this week, **258 of 291 on-campus students are boosted**, 23 have applied for or been granted medical accommodations/exemptions, and 10 are not in compliance:

## COUNTY CASES ON THE DECLINE:

Reported positive cases in both Essex and Franklin counties continue to decline. In the past seven days, **the number of total reported cases in Franklin County has dropped 14 percent, while the decline in Essex County is more than 47 percent, per CDC data**. Still, the level of community transmission remains high in both counties.
