

NORTH COUNTRY COMMUNITY COLLEGE

THE STATE UNIVERSITY OF NEW YORK
RADIOLOGIC TECHNOLOGY PROGRAM

Health Requirements for Radiologic Technology Students

In addition to the two (2) State Mandated MMR (measles/mumps/rubella) immunizations and the Meningitis documentation required by Health Records at NCCC, there are other program requirements that must be submitted to the Radiologic Technology office.

- Information needed the first day of classes are highlighted in yellow below.
- If the boxes are not highlighted in yellow, the information is **not needed until later in the semester**.

- Health Report (physical):** Copy below. This form must be **COMPLETELY** filled out by you and by a health care professional. **NOTE: All dates (including date of physical exam) must be AFTER July 4th (within six months of the first clinical rotation).** Depending on the clinical sites that you attend, you may be required to submit an updated physical every six months. Please make sure that *your* signature is on the second page and the health care professional's signature and office information are on pages 2 (for the PPD/TB Skin Test) and on page 3 (for the physical examination).
- Tuberculin Skin Test (PPD):** The date of the Tuberculin skin test must be within the last year. Please have your health care professional complete the appropriate section on page 2 of the health form (enclosed) or submit the information on the letterhead or prescription pad from the health care professional's office. Depending on the clinical sites that you attend, you may be required to submit a Two-Step Test or a Second PPD.
- OSHA Respirator Evaluation:** Copy below. Questions 1-9 on this form must be **COMPLETELY** filled out by you and then the document must be reviewed and signed by a physician. If the facility is unable to provide the fit test at that time, the fit test will be completed at a later date at NCCC.
- Tetanus Shot (Tdap):** NCCC and clinical affiliates are requiring proof of a tetanus shot within the last ten years.
- Varicella/Zoster & Hepatitis B Information Sheets:** Copies below. Please sign and return them to this office. As noted on the document, you will need to submit either proof of Varicella vaccination or a positive Varicella titer. In lieu of the Hep B Information Sheet, you may provide proof of positive Hep B titer. Proof of the Hep B series alone is not sufficient to meet this requirement.
- Seasonal flu vaccination:** **Due October.** NCCC and its clinical affiliates require that you obtain and provide proof of the seasonal flu vaccination. Do **NOT** obtain this vaccination prior to September to ensure appropriate strains are included.

- **Valid CPR card for Professional Rescuer or Healthcare Provider:** **Due December.** Please see the enclosed information sheets regarding acceptable CPR courses. The date of the certification must be within the past year. If need be, you have the opportunity to attend CPR in the Fall 2021 semester at NCCC prior to the due date. *NOTE that the CPR certification must be for infant, child and adult with AED and BVM, or it will not be acceptable.* On-line courses without practical demonstration are NOT acceptable.

- **Student Professional Liability Insurance:** **Due December.** All students who have been admitted to the AAS Radiologic Technology program will be required to provide proof of student professional liability insurance and maintain coverage throughout the course of the program. Further information on obtaining this insurance will be covered at the start of the Fall semester.

**PLEASE DO NOT PROCRASTINATE!
TAKE CARE OF THESE REQUIREMENTS
AND SUBMIT THEM BEFORE THE
REQUIRED DEADLINES!
FAILURE TO COMPLY WILL RESULT IN
REMOVAL FROM THE RADIOLOGIC
TECHNOLOGY PROGRAM.**

PHYSICAL HEALTH REPORT

This health report and physician's evaluation form the basis of the employee's and student's health record for specialized curricula. This information is strictly confidential, and in no way influences the student's or employee's standing at the College.

**RADIOLOGIC
TECHNOLOGY
STUDENTS/FACULTY**

Required to have an annual physical examination including Tuberculin Skin Test (PPD) and must complete the "Radiologic Technology" section of this health report.

New York State Public Health Law, Section 2165, requires proof of immunity to measles, mumps and rubella and proof or declination of the meningitis vaccination. This law is mandatory for ALL college students born in 1957 or later and registered for six (6) credit hours or more. (See separate Student Immunization Record Form.)

INFORMATION RECORDED ON THIS FORM IS CONFIDENTIAL.

→ PHYSICIANS: Complete Part III and sign by the bold arrows **→**

If checked any of the above, please explain below. Be specific. Use additional paper if necessary.

Please list any allergies to foods, drugs, etc. _____

Do you take any medications regularly? Yes No If "Yes", please list drug(s) and dosage(s) _____

Please list any serious injuries, illnesses, fractures, dislocations and surgery: _____

Do you have any disability or impairment of which we should be aware? Yes No

If "Yes", please explain: _____

Are you currently receiving treatment at a clinic or by a physician (other than regular checkups)? Yes No

If "Yes", please explain: _____

Are you or have you ever been under the care of a psychologist, psychiatrist or psychiatric clinic? Yes No

If "Yes", please explain: _____

When was your last tetanus booster? _____

RELEASE AUTHORIZATION
CONFIDENTIAL NURSING and RADIOLOGIC TECHNOLOGY STUDENTS / FACULTY ONLY CONFIDENTIAL

I affirm that I have completed Sections I and II of the Health Report completely and accurately. By signing this form, I hereby authorize NCCC to disclose, as needed, any and all of my health-related records to: clinical and community facilities and agencies that I will be assigned to; College program faculty, staff, and administrators who have legitimate educational interest in this information; and emergency and other medical personnel in a medical or emergency situation. I also assume full responsibility for my participation in clinical and community experiences, releasing the College from any and all liability. I further understand that if at any time during the semester my health conditions change or I am involved in an accident that affects my ability to provide care, I will notify NCCC Program Faculty immediately.

OSHA RESPIRATOR MEDICAL EVALUATION QUESTIONNAIRE

Today's Date: _____ Your Name: _____

Your Height: _____ Ft. _____ In. Your Weight: _____ Lbs. Your Job Title: Student Radiographer

PART A -- Questions 1 through 9 below must be answered by every individual who has been selected to use any type of respirator (please check "yes" or "no").

1. Do you currently smoke tobacco, or have you smoked tobacco in the last month? Yes No
2. Have you ever had any of the following conditions?
 - a. Seizures (fits) Yes No
 - b. Diabetes (sugar disease) Yes No
 - c. Allergic reactions that interfere with your breathing Yes No
 - d. Claustrophobia (fear of closed-in places) Yes No
 - e. Trouble smelling odors Yes No
3. Have you ever had any of the following pulmonary or lung problems?
 - a. Asbestosis Yes No
 - b. Asthma Yes No
 - c. Chronic bronchitis Yes No
 - d. Emphysema Yes No
 - e. Pneumonia Yes No
 - f. Tuberculosis Yes No
 - g. Silicosis Yes No
 - h. Pneumothorax (collapsed lung) Yes No
 - i. Lung cancer Yes No
 - j. Broken ribs Yes No
 - k. Any chest injuries or surgeries Yes No
 - l. Any other lung problem that you've been told about Yes No
4. Do you currently have any of the following symptoms of pulmonary or lung illness?
 - a. Shortness of breath Yes No
 - b. Shortness of breath when walking fast on level ground or walking up a slight hill or incline..... Yes No
 - c. Shortness of breath when walking with other people at an ordinary pace on level ground..... Yes No
 - d. Have to stop for breath when walking at your own pace on level ground..... Yes No
 - e. Shortness of breath when washing or dressing yourself..... Yes No
 - f. Shortness of breath that interferes with your job..... Yes No
 - g. Coughing that produces phlegm (thick sputum)..... Yes No
 - h. Coughing that wakes you early in the morning..... Yes No
 - i. Coughing that occurs when you are lying down..... Yes No
 - j. Coughing up blood in the last month..... Yes No
 - k. Wheezing..... Yes No
 - l. Wheezing that interferes with your job..... Yes No
 - m. Chest pain when you breathe deeply..... Yes No
 - n. Any other symptoms that you think may be related to lung problems..... Yes No
5. Have you ever had any of the following cardiovascular or heart problems?
 - a. Heart attack..... Yes No
 - b. Stroke Yes No
 - c. Angina Yes No

- d. Heart failure..... Yes No
- e. Swelling in your legs or feet (not caused by walking) Yes No
- f. Heart arrhythmia (heart beating irregularly) Yes No
- g. High blood pressure..... Yes No
- h. Any other heart problem that you've been told about..... Yes No

6. **Have you ever had any of the following cardiovascular or heart symptoms?**

- a. Frequent pain or tightness in your chest..... Yes No
- b. Pain or tightness in your chest during physical activity..... Yes No
- c. Pain or tightness in your chest that interferes with your job..... Yes No
- d. In the past two years, have you noticed your heart skipping or missing a beat Yes No
- e. Heartburn or indigestion that is not related to eating Yes No
- f. Any other symptoms that you think may be related to heart or circulation problems..... Yes No

7. **Do you currently take a medication for any of the following problems?**

- a. Breathing or lung problems..... Yes No
- b. Heart trouble..... Yes No
- c. Blood pressure Yes No
- d. Seizures (fits)..... Yes No

8. **If you've used a respirator, have you ever had any of the following problems? (If you've never used a respirator, check the following box and go to question 9.)**

Never used a respirator before.

- a. Eye irritation..... Yes No
- b. Skin allergies or rashes Yes No
- c. Anxiety Yes No
- d. General weakness or fatigue..... Yes No
- e. Any other problem that interferes with your use of a respirator Yes No

9. **Would you like to talk to the health-care professional who will review this questionnaire about your answers to this questionnaire?** Yes No

NORTH COUNTRY COMMUNITY COLLEGE
Radiologic Technology Program

TO: Radiologic Technology Students

Subject: Varicella (Chicken Pox) and Zoster (Shingles)

I have had a Varicella Titer (please submit evidence of titer with this form.)

OR

I have received the immunization series (2 shots) for varicella/chickenpox (please submit appropriate evidence of immunizations with this form).

I understand that if I do not have immunity to Varicella, I could contract the disease in the form of Shingles (Zoster) or Chicken Pox (Varicella). I also understand that if I do contract either disease, I could spread it to patients (particularly those with a decrease in immunity) unknowingly during the prodromal stage of the disease which may run from 10 days post exposure to the end of the incubation period of 21 days post exposure.

Therefore, I understand that if I do not have a positive Varicella titer, I would be professionally negligent in reporting to a clinical area in the event that I do become exposed to either disease.

I further understand that if I do contract Varicella or Zoster, I will not return to patient care until all lesions have dried and crusted.

MY DATED SIGNATURE BELOW INDICATES THAT I HAVE READ AND UNDERSTAND THE ABOVE INFORMATION AND THAT, IF I DO NOT HAVE A POSITIVE TITER FOR VARICELLA OR AM NOT POSITIVE THAT I HAVE IMMUNITY TO VARICELLA, I WILL COMPLY WITH THE ABOVE POLICY.

Print Name: _____

Signature: _____ Date: _____

RETURN SIGNED FORM TO THE RADIOLOGIC TECHNOLOGY OFFICE

CDC Guidelines Nosocomial Infections

8. PERSONNEL EXPOSED TO VARICELLA OR ZOSTER

- a. After exposure to varicella (chickenpox) or zoster (shingles) personnel not known to be immune to varicella (by history or serology) should be excluded from work beginning on the tenth day after exposure and remain away from work for the maximum incubation period of varicella (21 days).

CATEGORY I

- b. Personnel who have onset of varicella should be excluded from work at least until all lesions have dried and crusted.

These suggestions are not meant to restrict hospitals from using additional precautions.

NORTH COUNTRY COMMUNITY COLLEGE

Radiologic Technology Program

TO: Radiologic Technology Students

Hepatitis B Information Sheet

I understand that, due to my attendance in clinical experience, exposure to blood or other potentially infectious materials is a very real possibility. As a result of a possible exposure, I may be at risk of acquiring Hepatitis B Virus (HBV) infection. North Country Community College has recommended that I receive the series of Hepatitis B vaccinations as an effective way of protecting myself from acquiring this infection. I understand that it is, however, my choice to make and that whatever I decide will not affect my status at NCCC.

I further understand that if I make the decision to decline the series of HBV vaccinations, I continue to be at risk of acquiring Hepatitis B, a serious disease. I also understand that my risk may be decreased by maintaining certain behaviors in the clinical setting and that these behaviors will be taught to me prior to entry into the clinical practicum. I further understand that learning these behaviors and maintaining these techniques and behaviors in the clinical setting are primarily my responsibility. I fully understand, however, that total protection can only be achieved by having active immunity for Hepatitis B.

In the event that I choose not to receive the series of HBV vaccinations, I take full responsibility for my decision and will not hold NCCC or the clinical agency in which I learn and practice my skills responsible if I should acquire the Hepatitis B virus. If I do choose to receive the series of HBV vaccinations, I understand that I (not NCCC) am responsible for any and all expenses incurred as a result of my decision to receive these vaccinations and/or titers.

To be permitted to enter a clinical area, all students must read, date and sign this form. For individuals deciding to receive the series of HBV vaccinations, guidelines are printed on the reverse side of this sheet to help explain and facilitate the vaccination process.

MY DATED SIGNATURE BELOW INDICATES THAT I HAVE READ AND UNDERSTAND THE PRECEDING INFORMATION ABOUT **HEPATITIS B** AS IT RELATES TO MY STATUS AS A STUDENT IN THE RADIOLOGIC TECHNOLOGY PROGRAM, THAT I MUST MAKE A DECISION TO:

- SUBMIT A COPY OF THE SERIES OF HBV VACCINATIONS OR,**
- SUBMIT A COPY OF LAB RESULTS SHOWING A POSITIVE TITER OR,**
- DECLINE THE SERIES OF HBV VACCINATIONS**

Print Name

Signature

Date

8. CONTROL OF HEPATITIS INFECTION

a. Personnel who are suspected of being infected with hepatitis A virus (HAV) should not take care of patients until 7 days after the onset of jaundice. CATEGORY III

b. Screening for evidence of prior infections with hepatitis B virus (HBV) in personnel who work in dialysis centers or other high-risk areas should be done only when needed to institute appropriate control measures. CATEGORY I

c. Personnel who are known carriers of HbsAg should be counseled about precautions to minimize their risk of infecting others. CATEGORY I

d. 1) Personnel who have no exudative lesions on the hands and who are acutely infected with HBV, are known to be carriers of HbsAg, or have hepatitis non A/non B (NANB) should not be restricted from patient-care responsibilities, unless there is evidence of disease transmission. CATEGORY I

2) Personnel who have no exudative lesions on the hands and who are acutely infected with HBV, are known to be carriers of HbsAg, or have hepatitis NANB should wear gloves for procedures that involve trauma to tissues or direct contact with mucous membranes or non-intact skin. CATEGORY II

e. Personnel with exudative lesions on the hands who are HbsAg-positive should either wear gloves for all direct patient contact and when handling equipment that will touch mucous membranes or non-intact skin or abstain from all direct patient care. CATEGORY I

f. Dental personnel should consider routine use of gloves, masks, and protective eyewear when performing dental procedures. CATEGORY III

These suggestions are not meant to restrict hospitals from using additional precautions.
