

COVID-19 Testing Requirements for On-Campus Students

Recent upticks in COVID-19 infections across college campuses have led the State University of New York (SUNY), of which North Country Community College is a part of, to adopt and require COVID-19 testing plans for all campuses.

Effective immediately, all students must present evidence of a negative COVID-19 test result prior to arriving on campus for any reason other than a curbside pickup arrangement. The test must be administered within 5-8 days of your arrival on campus.

After you are initially tested, if you will be on campus regularly, you must also agree to participate in pooled surveillance testing every two weeks. The pooled surveillance tests can be given on campus and you would participate by providing a saliva sample.

For specifics on what you need to do if you're coming to campus, how to arrange a test and contact information on testing sites, [visit the Fall 2020 page on our website](#). If you have any questions, contact Stacie Hurwitch at shurwitch@nccc.edu.
